

NEW VARIETIES

Famous GRAYWAY PAPERSHELL PECAN TREES DIRECT from GROWER to YOU!

GraKing—Nearly as large as Mahan, but seems to fill better and to be more cold resistant. An early, heavy producer. Original tree in Hugo, Oklahoma. Very large, attractive nut with good kernel qualities. GraKing and Stuart were the only trees in our nursery not injured in the severe freeze of 1950. About 52 - 54% kernel. Our introduction.

SCHLEY—Thin shell, excellent flavor and attractive kernel have made this a standard for pecan eating quality. Good yard tree, but sometimes not as prolific as might be desired. About 60% kernel. Nuts usually bring a premium price.

GIANT MAHAN—Perhaps the largest of all papershell pecan varieties. Sometimes 3 inches long; thin shell, vigorous grower and a heavy producer. Usually does not fill out very well, but nuts look like bananas hanging on tree. A good grower that makes an excellent shade tree for the home.

BARTON

A Success-Moore cross made by Mr. L. D. Romberg of the USDA to combine disease resistance with the size and excellent kernel qualities of Success. Thin shell, good cracker, and very attractive. Widely adapted. About 55% kernel; 45 to 50 per pound.

BURKETT—Large—40 per lb. Thin shell; 50% plump, rich kernel. Mid-season ripener; heavy, producer. Popular western variety.

WESTERN SCHLEY—Early and heavy producer; about 55 per pound; 60% kernel. Moderately early ripener; vigorous grower; good yard tree.

DELMAS—A good producer of large nuts that shell out easily. Upright growth and large green leaves make it one of our most attractive yard trees. Ripens a little too late for Oklahoma.

STUART—Old variety, safely used over wider territory than probably any other. Large size. Medium shell—48-50% kernel. Early ripener.

COMANCHE

A Burkett-Success cross made by the USDA. It resembles Burkett, but is more disease resistant and is a better keeper. Vigorous grower. Starts growth later than Burkett. Bright kernel. About 55 - 58% kernel; 40 nuts per pound.

DESIRABLE—One of the largest. Excellent cracker; early bearing; promises to be one of heaviest producers; thinner shell than success.

SUCCESS—Most popular eastern variety in Texas. Large—40 per pound; medium shell; 52% kernel. Fairly early producer; ripens uniformly in mid-season. Buds late in spring.

GraTex U.S. Department of Agriculture

A Success-Ideal cross. Extremely thin shell. Plump, highly flavored kernel. Good Producer. Strong growing tree. Our introduction. 65-67% kernel.

BRAKE

Extremely thin shell; high quality. About 65% kernel. Attractive yard tree. Medium size; resembles GraTex. The first patented pecan.

SHADE TREES that PAY DIVIDENDS

The Papershell Pecan is one of the most beautiful and longest lived of all trees, and it bears one of our finest nuts.

In the value of its delicious nut crop, it will repay its cost not once, but over and over again, regardless of whether it's original cost was \$1 or \$100.

PRICES OF PECAN TREES PLANTED BY US

Size No.	Price of Tree	We Plant and Guarantee	
		Planting	Total
1059	\$10.50	\$ 6.00	\$16.50
1699	16.95	8.00	24.95
2199	21.95	8.00	29.95
2899	28.95	10.00	38.95
4009	40.00	10.00	50.00

GUARANTEE: We will replace and replant any dead tree at the end of the first summer without charge for the tree provided the customer pays us for the planting at our regular printed charge. (See NOTE). On large, B & B trees, the planting charge will be 20% of the original cost.

TREES PLANTED BY CUSTOMERS

GUARANTEE: We will replace, f.o.b. the nursery, for one-half the purchase price, any dead tree if notified at the end of the first summer. Dead trees should be returned to the nursery for examination. Maybe we can help you by determining the cause of failure. (See NOTE)

IMPORTANT

1. Add 10c per tree if Scientific Root treatment is desired.
2. Add 25c per tree for GraKing, Barton and Comanche.
3. Prices are F.O.B. Arlington.
4. Shipment by express or motor freight.
5. The length of root is not included in height of tree.
6. Trees will be pruned, ready for plant.

Size	Approx. Height Ft.	1-9 Trees Each	10 Trees Up
No. 249	2 to 3	\$2.40	\$2.25
No. 299	3 to 4	2.95	2.80
No. 399	4 to 5	3.95	3.70

"GO GRAYWAY ALL THE WAY"

Gray's Tripl-Tree Orchard

A Family Peach Orchard

Planted in Less Than a Square Yard

If you have room for one tree, you can plant a Gray's Tripl-Tree Orchard. Plant three varieties ripening at different times, about 18 inches apart, in the same hole. Then sit back and watch 'em grow. Provide fresh fruit during two or three months. Produces fruit the third summer—maybe a little the second. Takes up no more room than a single tree. Can produce 100 to 200 lbs. delicious peaches in one season. Order two Tripl-Tree Orchards (six trees) and have peaches ripening from early June to August.

TRIPL-TREE ORCHARD PRICES (Not Prepaid)

Three 3 to 4 ft. trees.....	\$ 4.00
Three 4 to 5 ft. trees.....	5.00
Three 6 ft. trees (Extra heavy).....	8.50

PEACH VARIETIES—(Listed in approximate order of ripening. The number following the variety name denotes the number of weeks the variety ripens before Elberta.

CARDINAL. (6½) Earliest yellow-fleshed cling. Plenty of red color.
REDCAP. (6) Attractive red blush. Good flavor. Yellow flesh cling.
DIXIED. (6) Cling. Highly colored, attractive, yellow flesh.
DIXIGEM. (5) Attractive, early-ripening yellow-flesh freestone.
RANGER. (4) Yellow-fleshed freestone. Superior to Golden Jubilee.
RED GLOBE. (2) New yellow flesh freestone of good quality.
HALEHAVEN. (2) Large, beautifully colored, prolific. Popular.
JULY ELBERTA. (2) Similar to Halehaven, but used farther south.
SULLIVAN EARLY ELBERTA. (1) Similar to Elberta in every way.
REDSKIN. (0) Freestone ripening with and superior to the Elberta.
ELBERTA. Old reliable well-known, yellow-fleshed freestone.
PERKINS. Yellow flesh freestone that ripens about one week after Elberta. Excellent quality. One of the finest in its season.
FRANK. A yellow-fleshed cling. Ripens 2 weeks after Elberta.
INDIAN. Red fleshed, highly colored clingstone.

PEACH TREE PRICES (Not Prepaid)

3-4 ft. Branched 2 years.....	\$1.45
4-5 ft. Branched 2 years.....	1.75
5-6 ft. Branched 2 years.....	1.95
5-6 ft. Extra Heavy.....	2.95
6 ft. Heavy.....	3.95

Bearing Sizes GRAYWAY-GROWN PAPERSHELL PECAN TREES

MOVED DIRECT FROM OUR NURSERY TO YOUR HOME
 What we call our bearing size papershell trees are those that have borne one or more crops of nuts in our nursery; mostly trees with trunks 1½ inches and up in diameter. Those with trunks 3 inches and up should usually be moved with a ball of earth around the roots—called "B & B" for "balled & burlapped." Weighing from 500 to 1,500 lbs., they require winches and trucks for hauling, and sell for \$99.50 and up, planted and guaranteed.
 Because of the earth around the roots, they are pruned very little; so they go right on producing with little delay, giving quick production and quick shade, saving several years in time. Priced \$99.50, \$135.00 and \$175.00 delivered, planted and guaranteed in Dallas or Fort Worth.

*Add Shade
and Beauty to Your Home*

Mr. G. W. Bechtol of Tarrant County, Texas, inspects his 36,000 pound crop in his young 50-acre GRAYWAY-GROWN Papershell Pecan Orchard, only 13 years old. He sold \$10,000 worth of papershell pecans the 11th year. This fine orchard was planned by O. S. Gray and planted with GRAYWAY-GROWN nursery trees.

Yearly Production

8th year.....	4,000 lbs.
9th year.....	8,000 lbs.
10th year.....	8,143 lbs.
11th year.....	26,242 lbs.
12th year.....	26,306 lbs.
13th year.....	36,222 lbs.
14th year.....	32,000 lbs.
15th year.....	32,400 lbs.
16th year.....	60,000 lbs.
17th year.....	10,000 lbs.
18th year.....	30,500 lbs.

"THE GRAYWAY IS THE BEST WAY"

Gray's NON-FRUITING MULBERRY

6-Inch Diameter—Only 2 Yrs. Old

At Home of J. J. McNerny, Dallas, Texas

One of the most rapid growing trees we know of. Have seen it grow 15 feet in one year. Smooth, attractive trunk; large, dark green leaves. Absolutely non-fruiting. Promises to fill a need for a really good, rapid growing shade tree. Young trees sometimes tender in the fall, but mature trees seem perfectly hardy, having taken the 8 degree temperature a few years back. Our supply is very limited.

PRICE LIST NO. 60

Prices FOB Arlington. Shipped by Motor Freight or Express.
(Too large for Parcel Post).

Diameter	Height	Price—Each	Because of large branches and large root system, we must have a minimum shipment of 3 trees. Get your neighbor to order with you. *These sizes too large to ship.
